

Ketan Chavan

Web Developer

👤 Profile

Self-motivated and highly reliable university student. I'm a quick learner and a team player. I am a MERN STACK Web Developer who has experience with JavaScript technologies such as ReactJS, ReduxJS, MongoDB, MongooseJS, Axios, ExpressJS, NodeJS & more. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team

💼 Internships

Full Stack Developer at Sarvh

October 2021 — November 2021

- Built a set of rich modern web applications. Converted UI/UX design into HTML & CSS to work with ReactJS. Optimizing applications for maximum speed. Used React Axios API to fetch data from the backend and change the state in Redux.
- Made Backend API with ExpressJS & GraphQL. Created and modified schema-related changes in the database using Mongoose ODM and MongoDB Atlas. Created Login portal using PassportJS.

Front End Developer at Fintract Global,

October 2021 — November 2021

- Built Web Pages, Dashboard for Customer, Administrator, and Bank Admin from scratch from React and Redux-Thunk. Made a request to Django REST API using React Axios to create and update the state of Redux.
- Optimized the previous Web App by removing unnecessary libraries, using lazy loading and asynchronous JavaScript functions.

Front End Web Developer at Vidyalankar Institute of Technology, Wadala

June 2021 — September 2021

- Built an Online Repository Management System from scratch.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Built front end using React, Redux, Firebase + Microsoft Azure, React Router, Framer Motion, redux-thunk, TailwindCSS+ styled-components + TwinMacro.
- Connected Django with No-SQL database MongoDB (Pymongo)
